Scott Borovich, Shiloh Industries

Scott Borovich is the vice president of sales and program management, globally, for Shiloh Industries, a leading global supplier of lightweighting, noise and vibration solutions to the automotive, commercial vehicle and industrial segments. With over 20 years' experience in the automotive industry, Scott has demonstrated success in customer relationship management, program management and flawless launch execution. He has held leadership positions at Varroc Lighting Systems, Visteon Corporation, and Lear Corporation, and is a Certified Six Sigma Black Belt.

Scott holds a bachelor of arts in business administration from Michigan State University's, Eli Broad College of Business.

Julie Martin, HELLA:

Julie Martin is corporate vice president of sales for HELLA, responsible for positioning the company for additional growth in strategic product areas that include energy management, driver assistance and lighting. She manages major OEM accounts globally for HELLA's automotive electronics and lighting divisions.

In 2015, Martin was named by Automotive News as one of the top 100 Leading Women in the North American Auto Industry. A member of the OESA Executive Council for sales and marketing, Martin holds a bachelor's degree in materials and logistics management from Michigan State University. She remains an active alumna, recruiting and mentoring students from the MSU business fraternities.

Prior to being named a corporate vice president in 2014, Martin served as HELLA's purchasing director for electronics commodities in the Americas and previously managed North American production purchasing and supplier quality for HELLA's electronics plants in the U.S. and Mexico.

She began her business career as an analyst with Ford Motor Company's Automotive Components Division in 1989 and progressed through a series of purchasing positions in electronics, assembly operations, powertrain and interiors. In 1999, she became a Ford purchasing manager for the Climate Control Division.

She went on to hold a series of senior management positions at Visteon, including senior commodity manager for Visteon's Climate Control Group and for Visteon's Interior Product Group.

Lyle Otremba, Cooper Standard:

With more than 25 years of experience in the automotive industry, Lyle J. Otremba serves as vice president, adjacent markets of Cooper Standard. In this role, Otremba is leading the Company's expansion into adjacent markets, utilizing emerging technologies and innovative business approaches. Based at the Company's world headquarters in Novi, Mich., he reports to Keith Stephenson, executive vice president and chief operating officer.

He previously served as vice president, innovation and advanced product strategy at Cooper Standard. In this role, he led the establishment and execution of the Company's i³ Innovation Process and Innovation Groups, as well as the worldwide development and implementation of commercial and technical solutions for customers.

Prior to joining Cooper Standard, he served as vice president of business development for French-based FCI, a \$1.6 billion company and global leader in electronic interconnect solutions. At FCI, he led the sales, marketing and product development activities for the automotive division.

Previously, Otremba was vice president of Automotive Channel Europe for Memphis, Tenn.-based, Thomas & Betts, a \$3 billion leader in electrical and electronic interconnects. He also held a number of positions of increasing responsibility with Freudenberg-NOK in Plymouth, Mich., including vice president and general manager of Auttocom, a \$35 million joint plastics manufacturing venture between Freudenberg-NOK and Mecaplast Group, which was organized and implemented under his leadership.

Otremba is an active speaker to student and community groups, as well as technical and management forums, where he has spoken on technical careers, multiculturalism, and the importance of strategic planning and vision, as well as

**“Staying Relevant in a Time of
Revolutionary Industry Transformation”**

various critical technical topics, including light-weighting, innovation, and advanced elastomeric and metallurgic materials and trends.

Jim Seta, SKF USA:

Jim Seta serves as Global Vice President, Automotive Bearings and is located at SKF's North American Technical Center in Plymouth, Mich. SKF is a \$10 billion company and is the world leader in bearing technology, innovation, and manufacturing. He is responsible for technical and commercial sales, engineering, customer service, and profit and loss for all OEM and aftermarket applications in the light vehicle and commercial vehicle segments.

Jim has over 20 years of automotive and bearing related experience. Prior to joining SKF, he worked in several business functions including accounting, anti-dumping, contract review, marketing, and sales.

Jim received a Bachelor of Business Administration in accounting with a minor in communications from Eastern Michigan University. He is currently a board member of the Marketing and Sales Executives of Detroit (MSED). Jim is also very involved in his community and is a firm believer in giving back to the community. In addition to Jim's responsibilities at SKF, he was elected to public office in 2001 as a Dexter Village Trustee and in 2004 was elected Dexter Village President through 2007. Since 2003, he also serves on the Dexter Area Fire Department Board where he been the Chairman and a Board Member. Jim and his wife also own an ice cream parlor in Ann Arbor where they enjoy making people happy every day.

Moderator

Glenn Stevens, Detroit Regional Chamber:

Glenn Stevens is the executive director of MICHauto and serves as the Detroit Regional Chamber's vice president of automotive and mobility initiatives. In his role, Stevens provides strategic direction and leadership to the MICHauto program in its efforts to promote, grow and retain Michigan's automotive and next-generation mobility industries. MICHauto is the voice and convening body for Michigan to address key industry issues for talent, advocacy and awareness.

Stevens has more than 25 years of experience across the automotive, steel, specialty chemicals, and capital equipment industries. Prior to joining the Chamber, Stevens served as senior vice president of membership and sales with the Original Equipment Suppliers Association, where he was responsible for membership growth and retention, strategic partnerships and automotive industry development with states across the country.

Additionally, his previous experience includes leadership positions with Blue Water Automotive Systems, Kolene Corp. and National Steel Corp. Stevens chairs the Michigan Mobility Initiative, serves on the Advisory Board of Team One Plastics, is co-chair of the Michigan State University Broad Executive Forum, and serves on the Advisory Board of Detroit City Football Club. He earned a bachelor's degree in economics and an executive MBA from Michigan State University.
